

## 4.2.2 Percentage per day usage of library by teachers and students (foot falls and login data for online access) during the latest completed academic year.

For this purpose: generated the usage statistics reports for seven months (January to July), this query was raised by NAAC internal office during the month of August, 2021

The IGM Library has generated the online database usage statistics by login with the university library account at INFLIBNET Centre Portal under INFSTATS – USAGE STATISTICS REPORT.

<https://infistat.inflibnet.ac.in/index.php>

The InfiStats Usage Statistics Portal is developed by INFLIBNET Centre for monitoring the usage statistics of various e-resources made accessible to the member institutes under e-Shodh Sindhu Consortium. The InfiStats harvests the COUNTER Usage for members through SUSHI Protocol. The InfiStats portal imports the usage data from the publisher's website. The InfiStats interface provides journal title level usage to member institutes. The member institutions can also login to this portal for monitoring the usage of their respective e-resources that are available to them through central funding. The portal also provides an option to include the usage for self-subscribed resources by the member institutions and monitor from the InfiStats portal.

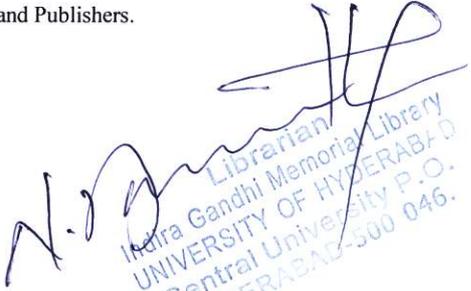

- ACM Digital Library
- American Chemical Society
- American Institute of Physics
- American Society of Civil Engineers
- Annual Reviews
- APS
- Institute of Physics
- JSTOR
- MathSciNet
- Oxford University Press
- Project MUSE
- The Royal Society Publishing
- Royal Society of Chemistry
- ScienceDirect
- Scopus
- Springer - Nature
- Taylor and Francis
- Web of Science
- Wiley-Blackwell

The following databases are not covered under INFLIBNET statistics report subscribed by the Library – reports collected from individual publishers.ArtsStore

- SciFinder
- ProQuest Literature online
- Science Online
- Emerald merging Market cause study
- Oxford English Dictionary
- EBSCO host
- IEEE Online
- LNCS
- India time series
- Sage business case complete
- Emerald 310 journals
- Economic outlook
- Prowess of interactive querying

Total Item Investigations - The total number of times a content item or information related to a content item was accessed.

Total Item Requests - The total number of times the full text of a content item was downloaded or viewed.

Article Request (NON-COUNTER) - The number of documents requested from the server.

Page Views - The number of pages viewed on a Web site.

Searches Run - Reports the number of keyword searches performed.

Visits - Represents the number of individual durations of times visitors were on the site accessing a series of pages without 30 minutes of inactivity. A single visitor can account for multiple visits in a single day.
